

## **Environmental Guidelines**

Our company is committed to an environmentally friendly production. On this basis, we want

- to encourage all our employees to have a sense of responsibility for the environment
- to use our natural resources carefully
- to assess the environmental impact of all our activities in advance
- to prevent or reduce environmental pollution to a minimum
- to avoid incidents and accidents
- to advise our customers of all environmental aspects of the handling of our products
- to maintain the implemented Environmental Management System according to DIN EN ISO 14001
- to comply with all legal requirements
